**Negative Aesthetics and Political Collapse in Eastern European and Balkan Cinema** Zoran Samardzija,2025-07-18 Negative Aesthetics and Political Collapse in Eastern European and Balkan Cinema examines the theme of political collapse in select contemporary Eastern European and Balkan art cinema and documentaries from the late eighties to the present Engaging with debates in Marxism and contemporary film theory about political aesthetics the book centers around the question of whether we can imagine possible futures through negative aesthetics which are skeptical of cinema s ability to reproduce reality in a comprehensive and unmediated manner In particular it analyzes examples of ambiguous art cinema and related hybrid documentary modes in order to invite spectators to rethink how we understand and represent the unique experiences of living through the collapse of authoritarian communism and the transition to neoliberal capitalism Negative Aesthetics and Political Collapse ultimately argues that the skepticism about political change and representing history found in these films forms an original mode of utopian thinking In other words their negativity about their own artistic autonomy is the very thing that allows them to hint at possible futures that are unrepresentable because they exist outside of the frameworks of contemporary geopolitics and our dominant understandings of cinematic aesthetics Redefining how we understand the intersections between geopolitics art cinema aesthetics and film theory the book presents a unique synthesis of film and political theory that attempts a new understanding of cinematic

aesthetics As such it will interest scholars of film theory global art cinema aesthetics regional studies of Eastern Europe and the Balkans and political science      **Human Rights and Political Dissent in Central Europe** Jakub

Tyszkiewicz,2021-12-06 This volume examines to what extent the positive atmosphere created by the Helsinki Accords contributed to the change in political circumstances seen in the countries of Central Europe under Soviet domination It focuses in particular on firstly a consequent new impetus to bolster human rights in international politics as Western democracies especially the US integrated human rights concerns into its foreign policy relations with Soviet Bloc countries and secondly how this Western embrace of human rights seemed to create new incentives for increased dissident activity in Central and Eastern Europe and from 1976 onward Finally the book reminds us of the significant role of the Helsinki Accords in developing democratic practices in Eastern European societies under Soviet domination in 1975 1989 and in creating the conditions for the peaceful transition to democratic government in the years that followed This book will be of key interest to scholars and students of the history of communism post Soviet Russian and central and East European politics the history of human rights and democratization      **Historic World Leaders** ,1994      **Information Freedom and Censorship** Article
