awareness of policy and its implications for services and practice *Children's Creative Inquiry in STEM* Karen Janette Murcia, Coral Campbell, Mathilda Marie Joubert, Sinead Wilson, 2022-04-05 This edited volume brings together international research that explores children's creativity in STEM inquiry. It takes the position that creativity is relevant in all aspects of life and is essential for adaptable and innovative thinking. The research-informed content of the book highlights both challenges and opportunities for growing children's creativity. The book focuses on fostering children's creativity and natural curiosity in the world around them through STEM inquiry. Through STEM inquiry, children are learning through a cross-disciplinary approach where they apply concepts from multiple fields as they are thinking creatively, problem-solving, and constructing solutions. Educators play a critical role in encouraging children's creativity by modelling creativity, providing creative projects for children, and importantly, establishing rich culturally connected environments where children have the resources, conditions, and opportunities for acting and thinking creatively. The book provides a lens for looking at children's creativity in a range of different cultural settings. It offers insight and guidance to future research and will build educators' capacity for developing children's creative practices.

Themes and Debates in Early Childhood Mary Wild, Alison Street, 2013-01-15 Early Childhood is a complex and diverse field. This text is designed to help students understand and engage with current themes in early childhood, supporting the development of critical thinking skills. Key themes such as children's voice, child wellbeing, identities, and professional relationships are presented and opened up for the reader through essential theory and selected extracts. Thought-provoking activities in all chapters help students to get a deeper understanding of contemporary themes in early childhood, supporting them in assignment writing and in linking theory to practice.

About the Early Years Series This series has been designed to support students of degrees and foundation degrees in Early Years, Early Childhood, and related disciplines.
