InDesign CC Digital Classroom Christopher Smith,AGI Creative Team,2013-08-26 Full color step by step instructional book video training from expert instructors tutorials and lesson files on companion DVD Cover **Web Usability Handbook** Mark Pearrow,2007 Since the first edition of the Web Site Usability Handbook was published in 2000 there have been numerous changes in the technology world After the Dot Com bubble burst corporate training and education budgets were cut severely and investment in new technology businesses slowed down But today things have turned around again and behind the scenes at technology companies usability specialists are still quietly working to make the electronic world easier

to manage This second edition provides the new insights and guidance needed to help make usability an effective and enjoyable journey Every word from the first edition of this book has been revised or at least heavily reconsidered and in many cases whole sections have been removed or rewritten entirely while other sections are completely new to this edition The casual and conversational tone of the first edition has also changed because the current wave of usability specialists embodies a much higher degree of training and knowledge of basic science The goals of the book however have not changed to train those concerned with usability how to understand it as one piece of the large technology puzzle that is affecting and shaping the human and natural worlds Usability is an art and a science but it is also an obligation we have to society Accessibility and usability form the foundation of human enabling technology that is technology that serves us rather than technology that we serve Everything from understanding the human factors of design and how to generate user centered designs to accessibility usability metrics heuristic evaluation and testing are detailed Whether you are a usability professional seeking methods for transforming data into change or a web designer seeking guidance for making your sites easier to navigate you ll find information and practical tools you can apply to your own sites today *Flex 3 Bible* David Gassner,2008-08-11 A guide to Adobe Flex 3 explains how to create Web applications that will run on all browsers and operating systems **Virtual Medical Office for Clinical Procedures for Medical Assistants** Elsevier Inc,Kathy Bonewit-West,2007-04 Gain realistic experience in a physician s office without leaving the classroom By using Elsevier s Virtual Medical Office learning system an Elsevier textbook a study guide and interactive software students develop critical thinking and decision making skills they ll need in their externships and on the job In Virtual Medical Office students experience patient care from check in through check out exploring all national curriculum competencies It shows how to manage different patients and why Each study guide lesson directs the student through the textbook and software and presents exercises focused on one or two medical assisting competencies at a time based on what they experience Realistic software simulations of handling a difficult patient setting up the exam room and many more bridge the gap between the classroom and the real world 15 unique cases promote understanding of how the competencies established by ABHES Accrediting Bureau of Health Education Schools and CAAHEP Commission on Accreditation of Allied Health Education Programs come into play in the workplace More than two hours of video clips highlight the communication and professionalism competencies of patient care Realistic information resources are shown such as medical records for each case an office policy manual a fee schedule a daysheet and more Performance summaries allow students to compare their decisions for each case to those of an expert and evaluate any differences between the two A study guide Complements textbook content through lessons that correlate reading assignments with patients in the virtual practice Focuses on one or two competencies in each lesson to create brief manageable learning experiences Demonstrates how all CAAHEP and ABHES medical assisting competencies come into play in the workplace Promotes active learning as students collect information

from a variety of sources to make patient care decisions Encourages critical thinking as students discuss and critique the performance of the medical assistants in the videos Augments knowledge of HIPPA by directing students to compare the policy manual the contents of each case s medical record and what actually happens in the videos Makes lessons available online allowing students to complete their assignments and submit them electronically to their instructor
