*Science and Practice of Pediatric Critical Care Medicine* Derek S. Wheeler, Hector R. Wong, Thomas P. Shanley, 2008-12-03 The field of critical care medicine is in the midst of a dramatic change Technological and scientific advances during the last decade have resulted in a fundamental change in the way we view disease processes such as sepsis shock acute lung injury and traumatic brain injury Pediatric intensivists have been both witness to and active participants in bringing about these changes As the understanding of the pathogenesis of these diseases reaches the cellular and molecular levels the gap between critical care medicine and molecular biology will disappear It is imperative that all physicians caring for critically ill children in this new era have a thorough understanding of the applicability of molecular biology to the care of these patients at the bedside in order to keep up with the rapidly evolving field of critical care medicine To the same extent the practice of critical care medicine is in the midst of fundamental change In keeping with the Institute of Medicine's report Crossing the Quality Chasm the care of critically ill and injured children needs to be safe evidence based equitable efficient timely and family centered 1 2 In the following pages these changes in our specialty are discussed in greater scope and detail offering the reader fresh insight into not only where we came from but also where we are going as a specialty Ie-Behavior Modification Miltenberger, 2007-07-01 Pediatric Critical Care Medicine Derek S. Wheeler, Hector R. Wong, 2007 This new textbook is the definitive evidence based resource for pediatric critical care It is the first ostensibly evidence based pediatric critical care textbook and will prove an invaluable resource for critical care professionals across the globe *Behavior Modification* W.
