Crowdsourcing for Innovation in Higher Education Regina Lenart-Gansiniec, Łukasz Sułkowski, 2022-11-11 Significant disruption to the educational sector occurred due to the COVID 19 pandemic This shed a light on the need for new delivery methods and greater collaboration which has become urgent and obvious as existing structures and traditional channels have struggled to cope or shut down Higher education institutions often fail to crowdsource successfully because crowds differ in how they are organized compared to traditional sourcing Instead of managing higher education institutions work with external contributors who self select into the process Crowdsourcing has significant potential to transform the education space by enhancing existing methodologies and offering innovative possibilities to develop new pedagogical techniques This offers benefits for practitioners institutions students and participants Drawing on theory and best practice illustrated with a wide range of the examples and cases Crowdsourcing for Innovation in Higher Education offers invaluable guidance and will be of interest to researchers academics policymakers and students in the fields of higher education development studies organizational studies management science and knowledge management

The Digital Transformation of the Automotive Industry Uwe Winkelhake, 2017-12-15 Building on his decades of experience as a consultant and project manager in the automotive industry the author develops comprehensive and pragmatic recommendations for action regarding the digital transformation of the automotive and supplier industries At the heart is the transition from a vehicle focused to a mobility oriented business model Based on the catalysts of the digital change four digitisation fields are structured and a roadmap for their transformation is presented The topics of comprehensive change in corporate culture and an agile and efficient information technology are covered in detail as vital success factors Selected practical examples of innovative digitisation projects provide additional ideas and impulses An outlook on the automotive industry in the year 2040 completes the discourse

Beyond the Conservatory Model Michael Stepniak, Peter Sirotin, 2019-09-05 Amid enormous changes in higher education audience and music listener preferences and the relevant career marketplace music faculty are increasingly aware of the need to reimagine classical music performance training for current and future students But how can faculty and administrators under urgent pressure to act be certain that their changes are effective strategic and beneficial for students and institutions In this provocative yet measured book Michael Stepniak and Peter Sirotin address these questions with perspectives rooted in extensive experience as musicians educators and arts leaders Building on a multidimensional analysis of core issues and drawing upon interviews with leaders from across the performing arts and higher education music fields Stepniak and Sirotin scrutinize arguments for and against radical change illuminating areas of unavoidable challenge as well as areas of possibility and hope An essential read for education leaders contemplating how classical music can continue to thrive within American higher education

Handbook of Research in Mobile Business Bhuvan Unhelkar, 2006 This reference book brings together various perspectives on the usage and application of mobile

technologies and networks in global business Provided by publisher **Sustainable Energy Transformations, Power and Politics** Sharlissa Moore, 2018-09-03 This book analyses energy transitions and the opportunities and challenges for building sustainable energy systems to improve human capabilities while protecting the environment Sufficient and secure energy supply is critical to human thriving and socioeconomic development Yet energy systems are also implicated in the most pressing socio environmental challenges of our time climate change air pollution and water and land use This book examines what is arguably the most ambitious vision for a renewable energy based system worldwide This vision often called Desertec is for a regional electricity system supplying North Africa Europe and the Middle East with sustainable and affordable power The behemoth plan would entail building dozens of large scale solar and wind power plants mostly in North Africa interconnecting the fragmented transmission infrastructure of 38 Mediterranean countries and linking North Africa to the European Union EU through undersea transmission cables Within the Mediterranean the book focuses on Morocco which is one of the most advanced developing countries in renewable energy scale up to understand its motivations for building renewable energy and the effects on sustainable development The book therefore takes a unique multi scalar approach to understanding the social and political aspects of energy transitions weaving together the views of villagers living near Morocco s first solar energy zone with the perspectives of national decision makers in Morocco with the views of European policymakers and major transnational energy companies in the Mediterranean region This book will be of great interest to students scholars and policymakers interested in energy transitions sustainable and renewable energy Mediterranean politics sustainable development and environment and sustainability more generally Forward-Looking Practices to Onboard Generation Z at Entry-Level Dr. Assefa Belay Wondim, 2024-12-12 Forward Looking Practices to Onboard Generation Z at Entry Level depicts the doctoral study of Dr Assefa Belay Wondim conducted at Capella University The doctoral study is about the identification of a set of forward looking practices to effectively onboard Gen Z new employees at the entry level as viewed by a nationwide panel of human resource policy experts and the determination of the extent to which there was a consensus of opinion among these experts as to the desirability feasibility and importance of these practices The outcome and findings of the project could have significance for practitioners and business organizations engaged in onboarding Gen Zs as well as for the body of knowledge in the field of HRM The project findings could serve as a blueprint on how to manage the talent of Gen Zs by understanding and aligning the work needs values and expectations of Gen Zs for onboarding with organizational onboarding practices The talent management of Gen Z might through effective onboarding practices contribute to a reduction in employee turnover which in turn could result in onboarding cost reduction and an increase in productivity for the organization Although the doctoral study findings primarily relate to the IT industry the project outcomes could also be applied to other business organizations to minimize employee turnover reduce onboarding costs and increase new hires productivity The utility of the consensus based desirable and feasible solutions may go beyond onboarding Gen Z

new employees The experts have expressed their 100% confidence in the utility of the consensus based desirable and feasible solutions for onboarding new employees across generations About the Author Dr Assefa Belay Wondim is a former employee of the United Nations Organization During his long service with the Organization Dr Wondim has accumulated rich knowledge in intergovernmental socio economic peace and security and administrative affairs During his tenure with the UN he excelled in research and development project management human resource management strategic planning and execution team building leadership and administration Dr Wondim is member of the National Association of African Americans in Human Resources NAAHR the global and Jacksonville Florida chapters of the Society of Human Resource Management SHRM and SHRMJAX and the Xi Delta chapter Capella University of the Delta Mu Delta International Honor Society in Business Dr Wondim obtained a BSc degree in Mathematics and MSc degree in Demography in Ethiopia He also obtained a Doctor of Business Administration degree in human resource management in the USA Dr Wondim has written an autobiography book titled Zantai My Life Story He is happily married and blessed with four successful children

Social Work and Integrated Care Robin Miller, 2019-04-30 Social Work and Integrated Care draws on the latest research practice and theory to explore integration within both child and adult services Although all the home nations in the UK view integrated care as a top priority within health and social care policy many people continue to experience fragmented care This book sets out the case for integration considers the evidence of its impact and discusses the implementation challenges that must be overcome Packed full of current examples of integration from across the UK and internationally and reflexive exercises which highlight practice issues for social workers it provides the following key learning outcomes An understanding of what is meant by integrated care and why it is seen as vital to a modern health and social system A knowledge of the expected impacts in relation to improving the experience and outcomes for individuals and their families addressing inequalities and promoting health and wellbeing and increasing financial efficiency A recognition of the common barriers to integrated care and what such fragmentation can mean for individuals and their families A critical review of key approaches to promote integration and their practical implementation Reflection on the potential contribution of social workers and their own collaborative practice Providing a comprehensive and accessible overview of integrated care policies and practice this book will help prepare social workers for the realities of collaborating with other professions and services It should be considered essential reading for students undertaking their professional qualification and those who are in practice who are looking to improve their ability to collaborate

Business and Development Studies Peter Lund-Thomsen, Michael Wendelboe Hansen, Adam Lindgreen, 2019-10-16 Business and Development Studies Issues and Perspectives provides a comprehensive collection of cutting edge theoretical and empirical contributions to the emerging field of business and development studies Compared to more traditional business school accounts of business in developing countries which focus on the challenges and opportunities of doing business in developing countries this anthology explores whether how and

under what conditions business contributes to the achievement of economic social and environmental goals in developing countries The book consolidates the current status of academic work on business and development identifies state of the art in relation to this academic field and establishes a future research agenda for business and development studies as an emerging academic discipline within the social sciences The book will be of interest to researchers and students including economists geographers sociologists political scientists corporate social responsibility specialists and development scholars who are seeking an in depth overview of current debates about the role of business as a development agent in the Global South The book is also of relevance to practitioners that are engaged in work with the private sector seeking to enhance the positive effects and minimize the negative economic social and environmental consequences of business activity in the Global South

Policy Innovations for Transformative Change Katja Hujo, Harald Braumann, 2016 The 2030 Agenda for Sustainable Development and the Sustainable Development Goals are a global commitment to transforming our world and eradicating poverty in all its forms everywhere The challenge now is to put this vision into action Policy Innovations for Transformative Change the UNRISD 2016 Flagship Report helps unpack the complexities of the 2030 Sustainable Development Agenda in a unique way by focusing on the innovations and pathways to policy change and analysing which policies and practices will lead to social economic and ecological justice Drawing on numerous policy innovations from the South the report goes beyond buzzwords and brings to the development community a definition of transformation which can be used as a benchmark for policy making toward the 2030 Agenda intended to leave no one behind Bringing together five years of UNRISD research across six areas social policy care policy social and solidarity economy eco social policy domestic resource mobilization and politics and governance the report explores what transformative change really means for societies and individuals

CIO, 2007-11-15 *Business Review Weekly*, 2007 Technology, Globalization, and Sustainable Development Nicholas A Ashford, Ralph P Hall, 2018-08-06 Technology Globalization and Sustainable Development offers a unified transdisciplinary approach for transforming the industrial state in order to promote sustainable development The authors present a deep analysis of the ways that industrial states both developed and developing are currently unsustainable and how economic and social welfare are related to the environment to public health and safety and to earning capacity and meaningful and rewarding employment The authors offer multipurpose solutions to the sustainability challenge that integrate industrial development employment technology environment national and international law trade finance and public and worker health and safety The authors present a compelling wake up call that warns of the collision course set between the current paths of continued growth and inevitable unsustainability in the world today Offering clear examples and real solutions this textbook illustrates how the driving forces that are currently promoting unsustainability can be refocused and redesigned to reverse course and improve the state of the world This book is essential reading for those teaching and studying sustainable development and the critical roles of the economy employment and the environment
