What Do You Think About? S T Kimbrough, 2022-07-12 The poems in this volume seek to stimulate us to think about the things that we tend to push aside questions and issues that it is easier to avoid They also encourage us to think about those things events places etc that are sources of joy achievement and sorrow Generally they do not address the philosophy of thought but rather the results of our thinking and how we evaluate the value of our thoughts At times many things surface that tend to move our thinking in different directions Each of the six sections of poems is prefaced with a question What do you think about yourself What do you think about time What do you think of what you think What do you think really matters What do you think makes you smile What do you think of love

The Development of L2 Interactional Competence Klara Skogmyr Marian, 2022-11-01 This book presents unique insights into the development of L2 interactional competence through the lens of complaining demonstrating how a closer study of complaining as a social activity can enhance our understanding of certain aspects of language learning with implications for future L2 research The volume employs a multimodal longitudinal conversation analytic CA approach in its analysis of data from video recorded interactions of several elementary and advanced L2 speakers of French as they build their interactional competence understood as the ability to accomplish social actions and activities in the L2 in context dependent and recipient designed ways Skogmyr Marian calls attention to three key dimensions of complaining in these conversations its structural organization the interactional resources people use when they complain and how speakers shared interactional histories and changing social relationships affect complaint practices The volume underscores the fundamentally multimodal socially

situated and co constructed nature of L2 interactional competence and the socialization processes involved in its development indicating paths for new work on interactional competence and L2 research more broadly This book will be of appeal to students and scholars interested in second language acquisition social interaction and applied linguistics The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution 4.0 license
