write what I write and have written what I wrote not to establish some truth so that you may have something to create a belief around What I bring to the surface for your observation may damage the foundation upon which beliefs are built A belief requires there be a tiny element of truth involved A belief is superstitious in nature There are many truths located in books in libraries around the world They are waiting to be discovered to make a difference on the planet I assert that there have been only 5 major changes on the face of this planet under our sun in the last sixty thousand years and there is no difference to speak of The five major changes are Our cave dwelling Our fashion Our mode of transportation Our attempted

means of communication Our ways of killing each other off I assert today that there is still man s inhumanity to man There are still wars and rumors of wars There are the rich there s the poor There is pestilence incurable disease and starvation There are unscrupulous lawyers unethical doctors and corrupt politicians You still have dirty police officers and scandalous governments There have been preachers teachers scientists and men of vision There is incest hunger the homeless killings and rape There are spiritual minds paradise money entertainers battered families and religiousness It has been this way since recorded history My proof and evidence are in any history book and any bible This is not about another truth Neither is this for your agreement and or approval I write what I write and have written what I wrote to bring a new language to the surface for your observation This new language is not a language such as English or Spanish or German or any other language with a name This new language is the language of languages If language were a tool then this new language would be the tool of tools With this new language I will attach control levers knobs and buttons to the thing that has been driving us linguistic beings And the thing that has us doing what we do This has been dancing the dance of life for the last 4 4 billion years The thing that has us creating a world for ourselves today is a past conversation based on hope about having a better tomorrow instead of simply having an excellent day today Thanks for stopping by *The End of Starvation* Werner
