Forging Passion Into Power:

The Forging of Passion Into Power Mary Everest Boole, 2015-06-25 Excerpt from *The Forging of Passion Into Power* In matters of external advantage the poor must feed on the crumbs which fall from the rich mans table In the mental science of how to suspend passion so as to convert it into power the inverse rule holds good Or perhaps it would be a truer statement of the case if we said that the same rule holds good in both realms but the classification is inverted the rich in the goods of this world have to ask for crumbs which fall from the table of the others Many of the worlds wealthy ones appear to be sincerely desirous to give to us more than crumbs of their external advantages But there seems to be some insuperable obstacle in the way The poor in money health sanity culture and reputation are always with us and the other poor the poor in the science of forging passion into power are with us too Perhaps one reason why the worlds favoured ones find it difficult to reach us either to give or to receive effectively is that we the poor do not reach each other Perhaps if we were more generous to each other the current thus set flowing might draw with it the possibility of effective currents being set flowing across barriers made by worldly prosperity About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Forging Passion Into Power* Jonathan Hanaghan, 1987
