Foucault In Winter In The Linnaeus Garden:

Foucault, in Winter, in the Linnaeus Garden Michael Joyce, 2015 A great thinker's estrangement and crisis months in foreign country imagined by one of our most internationally celebrated innovative writers. The Early Foucault Stuart Elden, 2021-05-20 It was not until 1961 that Foucault published his first major book History of Madness He had already been working as an academic for a decade teaching in Lille and Paris writing organizing cultural programmes and lecturing in Uppsala Warsaw and Hamburg Although he published little in this period Foucault wrote much more some of which has been preserved and only recently become available to researchers Drawing on archives in France Germany Switzerland Sweden and the USA this is the most detailed study yet of Foucault's early career It recounts his debt to teachers including Louis Althusser Jean Hyppolite Maurice Merleau Ponty and Jean Wahl his diploma thesis on Hegel and his early teaching career It explores his initial encounters with Georges Canguilhem Jacques Lacan and Georges Dum zil and analyses his sustained reading of Friedrich Nietzsche Edmund Husserl and Martin Heidegger Also included are detailed discussions of his translations of Ludwig Binswanger Victor von Weizs cker and Immanuel Kant his clinical work with Georges and Jacqueline Verdeaux and his cultural work outside of France Investigating how Foucault came to write History of Madness Stuart Elden shows this great thinker's deep engagement with phenomenology anthropology and psychology An outstanding meticulous work of intellectual history. The Early Foucault sheds new light on the formation of a major twentieth century figure

Epistolarity in a Post-Letter World Sindija Franzetti, 2024-11-18 The study intervenes in a field hitherto dominated by formal and historical analyses of the literary letter Across the five case studies the method of reading epistolarity as a motif is applied to a selection of American novels published after 1990 Nick Bantock's Griffin Lish and Dunn test the limitations of letters for conveying individual experience to a distant other Robinson and Erdrich envision epistolarity as an address to a future Exploring the employment of epistolarity as a motif the study offers an interpretation of the messages these fictions extend for readers in a post letter world Communication technologies and practices may change but epistolarity as a motif a reprise of a scene of encounter that depends on keeping a distance between addresser and addressee remains a deeply compelling site of inquiry in twenty first century literature Traversals Stuart Moulthrop, Dene Grigar, 2017-03-31 An exercise in reclaiming electronic literary works on inaccessible platforms examining four works as both artifacts and operations Many pioneering works of electronic literature are now largely inaccessible because of changes in hardware software and platforms The virtual disappearance of these works created on floppy disks in Apple s defunct HyperCard and on other early systems and platforms not only puts important electronic literary work out of reach but also signals the fragility of most works of culture in the digital age In response Dene Grigar and Stuart Moulthrop have been working to document and preserve electronic literature work that has culminated in the Pathfinders project and its series of Traversals video and audio recordings of demonstrations performed on historically appropriate platforms with participation and

commentary by the authors of the works In Traversals Moulthrop and Grigar mine this material to examine four influential early works Judy Malloy s Uncle Roger 1986 John McDaid s Uncle Buddy s Phantom Funhouse 1993 Shelley Jackson s Patchwork Girl 1995 and Bill Bly s We Descend 1997 offering deep readings that consider the works as both literary artifacts and computational constructs For each work Moulthrop and Grigar explore the interplay between the text s material circumstances and the patterns of meaning it engages and creates paying attention both to specificities of media and purposes of expression Bibliographie d'histoire littéraire française Otto Klapp, 2019 Geography of a Life Martin Bernal, 2012 An Astonishing work breathtakingly bold in conception and passionately written salutary exciting and in its historiographical aspects convincing G W Bowersock Institute for Advanced Study Princeton Demands to be taken seriously Every page that Bernal writes is educating and enthralling To agree with all his theses may be a sign of naivety but not to have spent time in his company is a sign of nothing at all Ray Herbert Thompson Reader in Egyptology University of Cambridge Anticipation of Geography of a Life Martin Bernal himself has avowed that Black Athena owes its conception to a mid life crisis Now that he has overcome this set back with obvious success one hopes he will live long enough to follow the example set by his mother Margaret Gardiner and his grandfather Sir Alan Gardiner who both wrote their memoirs in their eighties I have no doubt that Bernal's autobiography will generate more interest among educated lay persons and less irritation among scholars than any future volume of Black Athena Arno Egberts Professor of Egyptology University of Leiden

The Genocide Paradox Anne O'Byrne,2023-04-25 We regard genocidal violence as worse than other sorts of violence perhaps the worst there is But what does this say about what we value about the genos on which nations are said to be founded This is an urgent question for democracies We value the mode of being in time that anchors us in the past and in the future that is among those who have been and those who might yet be If the genos is a group constituted by this generational time the demos was invented as the anti genos with no criterion of inheritance and instead only occurring according to the interruption of revolutionary time Insofar as the demos persists we experience it as a sort of genos for example the democratic nation state As a result democracies are caught is a bind disavowing genos thinking while cherishing the temporal forms of genos life they abhor genocidal violence but perpetuate and disguise it This is the genocide paradox O Byrne traces the problem through our commitment to existential categories from Aristotle to the life taxonomies of Linneaus and Darwin through anthropologies of kinship that tether us to the social world the shortfalls of ethical theory into the history of democratic theory and the defensive tactics used by real existing democracies when it came to defining genocide for the U N Genocide Convention She argues that although models of democracy all make room for contestation they fail to grasp its generational structure or acknowledge the generational content of our lives They cultivate ignorance of the contingency and precarity of the relations that create and sustain us The danger of doing so is immense It leaves us unprepared for confronting democracy's deficits and its struggle to entertain multiple temporalities In addition it leaves us

unprepared for understanding the relation between demos and violence and the ability of good enough citizens to tolerate the slow burning destruction of marginalized peoples What will it take to envision an anti genocidal democracy **Ultimate**Reality and Meaning ,1986 T_L_S, the Times Literary Supplement ,1994 Land Forum ,2001 Il giardino delle Esperidi Centro studi giardini storici e contemporanei (Pietrasanta, Italy). Foucault, 2013-04-09 In the first of his annual series of lectures at the Coll ge de France Foucault develops a vigorous Nietzschean history of the will to know through an analysis of changing procedures of truth legal forms and class struggles in ancient Greece Subjective Et Verite Michel Foucault, Foucault and Animals Matthew Chrulew, Dinesh
