*The Secret History of World War II* Neil Kagan, Stephen Garrison Hyslop, 2016. From spy missions to code breaking, this richly illustrated account of the covert operations of World War II takes readers behind the battle lines and deep into the undercover war effort that changed the course of history. From the authors who created *Eyewitness to World War II* and numerous other best-selling illustrated reference books, this is the shocking story behind the covert activity that shaped the outcome of one of the world's greatest conflicts and the destiny of millions of people. National Geographic's landmark book illuminates World War II as never before by taking you inside the secret lives of spies and spy masters, secret agents and secret armies, Enigma machines and code breakers, psychological warfare and black propaganda, secret weapons and secret battle strategies. Seven heavily illustrated narrative chapters reveal the truth behind the lies and deception that shaped the secret war; eight essays showcase hundreds of rare photos and artifacts many never before seen; more than 50 specially created sidebars tell the stories of spies and secret operations. Renowned historian and top-selling author Stephen Hyslop reveals this little-known side of the war in captivating detail, weaving in extraordinary eyewitness accounts and information only recently declassified. Rare photographs, artifacts, and illuminating graphics enrich this absorbing reference book.

*Abducted: Can Cops Catch the Kidnapper?* (XBooks) Diane Webber, 2021-01-26. Can the kidnapper be caught? Charles Lindbergh was a very famous public figure whose son was kidnapped from his crib. Much of the investigation was based on a series of ransom notes which ultimately led to the conviction of a suspect. High interest topics, real stories, engaging design, and astonishing photos are the building blocks of the XBooks, a new series of books designed to engage and motivate reluctant and enthusiastic readers alike.

How can DNA help a convicted person prove their innocence? How did a burglar steal from a store without leaving any fingerprints? Why was the tiny town in Hardin, Missouri, awash with skeletons after a huge flood? With topics based in science, these action-packed books will help students unlock the power and pleasure of reading and always ask for more.
